Filaria Control Programme

2041. SHRI SANTOSH KUMAR SAHU: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) the activities undertaken and the achievements made so far in the country under the Filaria Control Programme;

(b) the names of States where the Rural Filariasis Projects have been taken-up, the states where the project are under progress and those proposed to be taken up;

(c) the number of Control Units, Survey Units and Clinics so far set-up, State-wise, and proposed to be set-up; and

(d) the extent of implementation so far in Orissa?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (SHRIMATI D.K. THARA DEVI SIDDHARTHA): (a) Under the National Filaria Control Programme, the following activities are being undertaken in Urban areas:—

1. Delimitation of the problem in unsurveyed areas.
2. Recurrent anti-larval measures.
3. Anti-parasitic measures.
4. Environmental control measures to prevent mosquito breedings.

There has been reduction in filariasis during the last five years. The disease rate has been reduced from 2.2% in 1986 to 1.2% during 1990.

(b) The three Rural Filariasis Projects at valsad (Gujarat), Jaunpur (Uttar Pradesh) and Srikakolam (Andhra Pradesh) were taken up during 1978-87. Due to resource constraint there is no proposal for undertaking further Rural Filarial Projects.

(c) The number of Control Units, survey unit and Clinics so far set up, State-wise proposed to be set up are:

Set-up as on 9.3.1992
